Product data sheet

ESD screw-on snap fastener

EN | 2026-11-12

Item number: DSWL44895

ESD snap fastener (10 mm) complete, consisting of upper and lower part. For fitting to grounding straps and cords with 10 mm connection. Spare part for the grounding circuit at the workstation. Pack size: 1 pc. Item number DSWL44895.

Description

ESD screw-on snap fastener: snap as a connecting element in the grounding circuit.

The snap (upper and lower part) connects wrist strap, cord and mat. It serves as a spare part or for your own assembly.

Size and design must match the respective cord or strap.

Typical areas of use

• Replacement on the wrist strap or cord

• Custom assembly of grounding cords

What to look for when choosing

• Size: 10 mm, to match your cord.

• Installation: rivet or screw on cleanly and firmly.
