Product data sheet

Heavy Duty Oil Cleaning Cloths - highly absorbent oil cleaning wipes

EN | 2026-11-12

Item number: D4204

Heavy-duty oil cleaning wipes made of meltblown polypropylene, 25 × 34 cm: absorb oil, grease and lubricants. Pack size: 528 pcs. For production equipment, tools and components. All details per datasheet.

Description

Heavy Duty Oil Cleaning Cloths - highly absorbent oil cleaning wipes: highly absorbent cleaning wipe for oil, grease and lubricants.

Oil cleaning wipes reliably absorb oil, grease and lubricants. Meltblown polypropylene is open-pored and wet-strong and releases few fibres.

Packed in 528 pcs.

Typical areas of use

- Cleaning tools, equipment and components
- Removing adhesive and ink residues
- Preparing surfaces for assembly and coating

What to look for when choosing

- Size and weight: according to the cleaning task.
- Cleaning agent: compatible with solvents, observe the datasheet.
