Product data sheet

ProSafe 1 ® ESD overshoes made of SMS nonwoven | antistatic & breathable

EN | 2026-11-12

Item number: PS1B-ÜS-ESD

ESD overshoes made of 4-ply SMS nonwoven in blue: antistatic and breathable, for cleanroom and ESD areas. Disposable product for visitors and short visits. Pack size: 500 pcs. All details per datasheet.

Description

ProSafe 1 ® ESD overshoes made of SMS nonwoven, antistatic & breathable: overshoes for cleanroom and ESD areas.

Overshoes prevent shoe soles from carrying dirt and particles into the area. The ESD version additionally dissipates charge via bands or dissipative components.

These are disposable products for visitors and short visits; they are disposed of after use.

Typical areas of use

• Access to cleanrooms and ESD areas

• Visitors, suppliers and service staff

What to look for when choosing

• Design: SMS nonwoven or model with dissipative bands.

• Floor: the dissipative effect depends on a dissipative floor and skin contact of the straps.

Technical data

Item number	PS1B-ÜS-ESD
Colour	Blue
Pack size	500 pcs

Notes on use

Overshoes protect floors and cleanroom areas from soiling. The dissipative effect depends on the dissipative floor and skin contact of the ESD bands; disposable product.
